About this property

Experience unrivaled luxury living in this state-of-the-art contemporary residence nestled on a mountainside within the highly anticipated El Lago Project in Real De La Quinta. Positioned within a gated community, this home offers uninterrupted panoramic sea views, seamlessly integrating modern architectural design with the surrounding natural landscape. With cutting-edge amenities both within the residence and the resort below, this property embodies the epitome of modern living.

The available plot spans 3085m² and comes with a full build license issued by the Benahavis Town Hall, valid until November 2024, with construction set to commence soon, allowing for a three-year completion timeline. The project has been meticulously designed by an internationally renowned architect.

The build license permits a total internal area of 572m², with the current design featuring 4 bedrooms and an array of cutting-edge amenities including a spa, indoor pool, sauna, gym, cinema room, library, and more. Retaining walls have already been established, reducing costs and construction time. The tendered build cost for the project, inclusive of high-quality finishes, is €2,600,000, although this can be adjusted based on the buyer's preferences.

The El Lago Project is poised to become one of the most sought-after destinations, offering unparalleled views and exclusive access to amenities such as a 5-star Banyan Tree Hotel Group, a 36,000m² water sports lake, a man-made beach and lagoon, innovative flash golf courses, padel courts, and a variety of dining and social areas. With a new road already half-completed, connecting the gated resort to Nueva Andalucia via La Cerquilla, travel times to major destinations will be significantly reduced.

This presents an incredible opportunity to own a residence within this exclusive enclave without the premium associated with completed homes.
